I called Daystar for prayer this morning, and the woman who prayed with me was one of the best prayer warriors I've ever had. I wanted to share that my sister-in-law's surgery went well, and we are believing she will walk again in Jesus' name. Thank you, Daystar, and thank you to your amazing prayer team!

# WHEN PROPHECY MEETS POLITICS

with Rabbi Jonathan Cahn

**You've written about many prophetic mysteries in your previous books—but *The Avatar* might be your most urgent yet. What prompted you to write this now?**

**JC:** *The Avatar* has to be the most explosive book I've ever written. Before I write any book, I seek the Lord as to what book I am to write. *The Avatar* is a prophetic revealing of where we are right now, the prophetic moment, where it is leading for the future, and what we need to know and do. It removes the veil separating the cultural and political realms from the spiritual realm. And once you do that, everything becomes clear, as it reveals the mysteries, the forces, the entities, the templates, and revelations in the spiritual realm that are actually determining what happens in the physical realm, the political realm, and every realm.

**One of the mysteries *The Avatar* reveals is an ancient Biblical template that has foreshadowed virtually every major American leader of modern times. Give us an example.**

**JC:** Yes, it's an amazing mystery from the Bible, a template that foreshadows and reveals the leaders of our time, what they will do, when they will do it, even the exact amount of time they will have on the national political stage. It is so specific that it actually foretold a calamity that struck America on September 11, 2001. It even pinpointed the exact hour it would begin. The mystery has even accurately foretold the outcomes of the last three presidential elections. It even foretold and revealed the mystery of Donald Trump.

**What is the mystery of Donald Trump?**

**JC:** If you want to understand Donald Trump, you have to understand his ancient biblical prototype – Jehu. Jehu was not political; he was a fighter. So is Donald Trump. Jehu was unpredictable. So is Trump. Trump began his political race for the White House by standing on top of the stairs, then coming down, and then beginning his race to the White House. Jehu began his rise to the throne by standing on top of the stairs, then coming down, then beginning his race to the throne. Jehu made an alliance with the religious conservatives of the land. So did Trump. In order to come to power, Jehu had to contend against the nation's former first lady, Jezebel. In order to come to power, Trump had to contend against America's former first lady, Hillary Clinton. Clinton had been on the national political stage with her husband for 22 years, then on her own, in public office and running for president, for 14 years. Jezebel had been on the national political stage with her husband Ahab for 22 years and on her own 14 years. There is so much more. The template is amazing and precise, it even gives us a glimpse of what we can expect in the days and years to come.

**You write that there is a counterfeit Messiah rising. Who or what is this figure?**

**JC:** He is the Antichrist or Antimesiah. You could say he is the ultimate avatar, the embodiment of the enemy on earth. I have explored the possibility of whether he is in the world right now. But beyond that, it is clear that the spirit of the Antichrist is already here, at work, and increasingly affecting our culture. What do we know of the Antichrist? He will come claiming to be God. He will overturn the ways of God. He will desecrate that

which is holy. He will persecute believers and seek to destroy the nation of Israel. So what spirit are we seeing already at work in our culture and world? It is a spirit that proclaims man as God, that overturns the ways and laws of God, that desecrates the holy and defiles the creation and image of God, that persecutes believers, and that hates the nation of Israel. The spirit of the Antichrist is already in our midst.

**How are we already seeing society being conditioned to receive a false Christ through technology, AI, media, and even spiritual trends?**

**JC:** Technology will undoubtedly play a part in End Times prophecy. First it provides the means for the Antichrist or a one world government to control all things, every transaction, every purchase. But it is also creating a dangerous new phenomenon in which we - particularly the younger generation - are becoming increasingly addicted to, dependent on, and joined to technology. That opens the door for a level of control and manipulation we have never seen before. On top of that, we are now witnessing the explosion of artificial intelligence. Up until now, our technology has served as a tool. But when it begins to take over the function of our thinking, then we have entered a whole new age, in which our technology is no longer serving us but becoming our master.

In view of such things, we must be vigilant to become strongly plugged into God, into His Word, into prayer, and into the Spirit. It is that plugging in, that bond, that will keep us from deception in the days ahead.

**You often say God doesn't reveal prophecy to scare us, but to prepare us. How should we respond to this revelation personally, spiritually, and practically?**

**JC:** As believers, we should never fear the future. If God placed us in the End Times, then He has called us for the End Times, and He will

anoint us for it. We were made for these times, and these times were made for us. If the End Times are dark, then we are all the more called to become lights into the darkness. And if the dark is to get darker, then it's time that the lights of God become all the more bright. We must see the days ahead as exciting and embrace the challenge. What greater honor could we get than to stand for God in a world that stands against Him, to bear witness for God in a world that doesn't know Him, and to shine His light in the dark? To do that, we must seek to become all the more strong in Him. But it is the most exciting of times.

**Lastly, what is God stirring in your spirit prophetically for the Church and the world in 2026?**

**JC:** The mysteries opened up in *The Avatar* ultimately reveal the mystery of the prophetic moment in which we are now standing. It is an incredibly critical moment. For if we change the government but don't change the hearts of the people, then the unchanged hearts will change the government back. God has given us a window. The window is a temporary reprieve and the chance to usher in revival. For it is only revival that can save America. And so, we must all commit to pray for revival as never before, minister for revival as never before, and actually choose to live in revival as never before. If we do that, the revival will come.

**If the End Times  
are dark, then  
we are all the  
more called to  
become lights  
into the darkness.**

# THE AVATAR

Rabbi Jonathan Cahn has become known around the world for uncovering deep mysteries in Scripture and connecting them to the times we're living in. In his brand-new book, *The Avatar*, he takes readers even deeper into the prophetic as he explores one of the most urgent spiritual questions of our generation.

This book looks at how an ancient pattern—one that involves false gods, deception, and a counterfeit messiah—is reemerging in our modern world. Rabbi Cahn walks readers through history, biblical prophecy, and current events to reveal how the spirit of deception is preparing the way for something that looks like light while it's anything but. It's a gripping, powerful message that brings clarity to a very confusing time.

What makes *The Avatar* stand out is that it doesn't just talk about what's happening around us. It brings everything back to Jesus, the true Messiah, and what it means to stay grounded in truth when the world is rapidly shifting. Rabbi Cahn's writing is clear and compelling, helping you see what's unfolding and why it matters.

Dear Partner

There is something so refreshing about stepping into a brand new year. January invites us to lift our eyes, open our hearts, and believe again that God has beautiful things ahead. I love Ephesians 3:20, which reminds us that God is able to do “immeasurably more than all we ask or imagine.” What a promise as we begin a new season together!

This year, I want to encourage you to live with **expectation**. Expect God to move in your circumstances. Expect Him to open doors no one else can open. Expect Him to bring restoration, healing, provision, and peace. The Lord has continually impressed on my heart over this last year: “**trust Him.**” We may not know everything ahead of us, but we can trust God no matter what. When we align our hearts with faith and trust His goodness, we position ourselves to see His hand at work in our lives in ways we never thought possible.

So, let’s step into 2026 with hope! I truly believe this can be a year marked by miracles as we walk in expectation.

January is also a special month for our family as we celebrate **Rachel Lamb Brown’s birthday!** Rachel is such a blessing to all of us, and I hope you’ll join me in wishing her a wonderful birthday filled with God’s joy and favor.

And I’m thrilled to share some exciting **network news, made possible** by your partnership. **Daystar Español** has launched on Totalplay, Channel 389, in Mexico. Totalplay is one of the largest pay-TV providers in the nation with **2.5 million subscribers**, which means millions more Spanish-speaking homes can now hear the Gospel.

We also have another major expansion: **Daystar** and **Daystar Español** have both launched on **Whale TV**, a global smart TV operating system. More than **44 million households** worldwide actively use Whale TV, and that number is growing rapidly. We are so grateful to God for opening this door to reach the nations.

Thank you for beginning another year with us and for believing in this mission. Your prayers and generosity help us take the message of Jesus farther than ever before. Let’s move into 2026 full of faith, full of hope, and full of expectation for all that God will do.

With love and appreciation,

Joni Lamb
